

nota

professional
MANUAL
• 1 gr. •

In the music and singing art, one of the most important qualities is the control on every note.

"Nota" embodies the essence of the skill, the study, the technique and of the Italian taste...the essence of shapes and contents with the right technique and the right control.

It is a professional machine with thermosiphonic supply system, E61 Levetta brewing raised group, 3 Lt copper boiler, a professional sized rotary pump, a protection thermostat for heating element, water loading from tank of 2,8 Lt with capacitive level detector and from water system, separate boiler pressure and water pressure gauges, easy to adjust boiler pressure essential for different coffee types and blends.

It is also available with double pumps (rotary pump plus one vibration pump only for refilling the boiler) more appreciated in professional use.

etnica *Display*

AUTOMATIC

2 gr. • 3 gr.

It is the top of the range and an evolution of Etnica. With covered groups and with display, it represents the indivisible bond between modern and ancient, where the future is son of history and the most modern technology matches with sounds and past times.

It is only available automatic with normal and raised E61 groups as well (2 gr.e 3 gr.) with programmable portion control, dual gauges for boiler and pump pressure control, boiler and pipes of copper, pipes fittings of brass, frame of pure polished and satined stainless steel AISI 304 finished of methacrylate.

The alphameric display allows to plan the following functions: switch ON/OFF time of the coffee machine, cup warmer working temperature, warning of softner regeneration, autosteamer temperature.

Moreover it allows to display the following data: functional test / malfunctioning notice, coffees counting for single group and single metering, temperature and working boiler, boiler pressure.

Optionals: electronic injection autsteamer and LED lights, same colour options and customization possibilities of Etnica.
